THE ART MACHINE

## Nettuno A2

## NETTUNO

The **Casadio Nettuno**, professional espresso machines symbolizes a trident of qualities: flexibility, strength and creativity. Its elegant design, introducing polished stainless steel and customizable side panels, advises attention. Powered by positive displacement pump, it brews coffee quickly and quietly, keeping pressure efficiently. Beginner Barista will find the easy steam system in-built for milk-based drinks, while the thermosiphonic system ensures consistent performance, even though during topmost busy hours.

The 2.4 inch display enhances user experience with intuitive graphics, and energy-saving features can be easily configured. Furthermore, with the uncompiled Wi-Fi module remote diagnostics and data collection become possible, adding to its allure.

THE ART MACHINE

Redesigned to offer greater flexibility, the new wands are one of the machine's most innovative features. Their length has been increased to allow baristas to work with larger milk jugs, while cold touch technology makes the wand grip more ergonomic and secure and facilitates cleaning after use. The articulated wands allow baristas to work in their preferred position with maximum visibility, ensuring perfect frothing every time.

The new, redesigned handles (in the wooden version) are designed to offer maximum ergonomics and comfort. In addition, optional new filter holders in the naked and double shot versions will be available, perfectly illustrating the evolution of the extraction method and the experience that the E71E offers baristas.

## E98UP

The **E98UP** is an elegant, versatile machine that is easy to use and maintain. Ergonomic and robust, the E98UP is made of steel. Its fixed-nozzle thermosyphon system is reliable and guarantees top performance, for excellent results in the cup every time.

Lights on the coffee group (optional) can be used to illuminate the work space. Available in 2- and 3-group dosed and continuous versions (and also in a Tall Cup version), the E98UP features button pads with backlit keys to ensure prompt and precise delivery, and comes in three colours (black, white and red). The wide logo strip on the front of the E98UP is ideal for adding your own personalisation.

- Reliable, high-performance thermal system
- Robust and ergonomic
- Button pads with LEDs
- Ergonomic filter-holder
- Quick and easy installation & maintenance

## E61 Jubile

**E61 Jubile** is the first machine to use a volumetric pump to give the water the ideal 9-atmosphere pressure and keep the pressure constant during the whole extraction process, unlike lever machines. It features updated devices linked to its revolutionary technical solutions and its stainless steel elegant body.

# PRESIDENT

Designed for those who always look to the future without ever renouncing tradition, *Faema's new machine, President A/2 GTi*, revisits the iconic models of the '60s offering cutting-edge technology. It is a machine in which past and future closely coexist, resulting in a sophisticated product that is not only capable of enhancing locations thanks to its restyled design, but also of distinguishing itself in terms of quality thanks to its innovative features.

The President GTi includes advanced brewing features that will allow professionals to brew precisely and consistently shot after shot.

## E71 E A2

Imagine a machine that can meet the needs of coffee specialists, while at the same time arousing the interest of every barista. The E71E is designed for those who do not accept compromises on the coffee that they want to offer their customers and for those who do not renounce manual skills and want to interact simply and immediately with the machine.
